KEY STEPS TO COMPLETING THE PHD & CAREER DEVELOPMENT MOOC

1. Register
   - Go to phdooc.moocit.fr to create an account. If your institution partnered with us, please register for the MOOC on their training platform as well!

2. Before the MOOC opens
   - You will get an email from us a few days before the MOOC opens. You will receive 2 mails every week during the MOOC offering season.

3. The MOOC opens
   - As soon as the MOOC is open, you can login on the platform. Once a Unit is open, all its contents remain available throughout the entire duration of the MOOC offering.

4. Exploring a unit
   - Each week, a new unit will open, and you will be able to explore all its contents and activities.

5. Learning pathways
   - You can validate either of these two types of pathways, but no need to choose one! The MOOC platform will keep track of your scores for you!

6. Score
   - You can check and follow your MOOC completion score and your survey grades under the "Progress" tab.

7. Additional support
   - Make the most of the range of options available to support you as you learn (DocToDoc, HelpDoc, collaborative activities...).

8. And more...
   - More resources are available to support you whenever you have a question or a doubt: the Help tab, tutorials, guides like this one...

STILL LOST?
The PhDOOC pedagogical team is here to support you throughout the MOOC! Feel free to share your questions in discussion threads dedicated to "technical questions" and check the FAQ! Other participants can help too!
